

BRAND MANAGERS COURSE

THE
atomic garden

A SCHOOL FOR REAL LIFE.

Exciting, absorbing and fascinating – that's the world of strategy and innovations. So is **The Atomic Garden Vilnius**, a different concept of school. A place for students to learn by working, **just like we did**. The desire, effort, and work are the basis of our method.

For us, the **Brand Manager** is one of the fundamental figures of this profession. And you can learn that here.

THE SCHOOL:

The Atomic Garden Vilnius is a **multidisciplinary space**, with over 300 m² of facilities available for students and guests. We have **3 fully equipped classrooms**, a kitchen (because students must also eat), and a common area in the heart of a city center. Take that!

OUR PHILOSOPHY:

1. The Atomic Manager.

In order to work for the best ones in the market, you need to be prepared for the strategic and creative management of the brands, to bring them market value, communicate well with the account executives, with the media center... In short, you must be prepared for everything.

2. Programme.

At The Atomic Garden Vilnius, we have the collaboration of some of the best Brand Managers and Dir. Of Customer Services in this country, which help us develop and evolve our program to be adapted to the demands of brands and the market.

3. More Than Teachers.

The role of our teachers is different from what you are used to. They are bosses, they are "the client", they are tutors, they are parents (metaphorically speaking, of course), they are inspiring and, above all, they are exceptional professionals. In short, they are much more than teachers. You will see.

4. The One Big Atomic Family.

When you sign up for one of our courses, you are part of our family. And the family is never abandoned. You can count on us during the course, during your practices and during the next decade if you need it. We are a family, get up everybody and sing.

PROGRAMME:

MODULE 1: THE BRAND

- What is a brand?
- Brand communication: different perspectives
